To the Trade

TO MEET the growing demand for fine Cutlery, we have produced a line which will fulfil the most exacting requirement of high-class trade. The jeweler who is prepared for this large demand during the Thanksgiving and Holiday Season, by having an ample assortment of Gorham Carving Sets and Cutlery on display, will find this one of the best selling and most profitable lines in his stock. These goods are shown in both sterling silver and buckhorn handles, in a wide variety of beautiful patterns, with blades of finely tempered steel. Their sale, like all Gorham wares, is restricted to the legitimate jewelry trade, as we do not sell to Dry Goods and Department Stores.
